

GAS LEAKAGE MONITORING & ALERTING SYSTEM FOR INDUSTRIES

- Many industries were affected by harmful gas leakage problem.
- The human central nerves system would be affected by the harmful gases.
- This project helps the industries in monitoring the emission of harmful gases.
- In several areas, the gas sensors will be integrated to monitor the gas leakage .
- If in any area gas leakage is detected the admins will be notified along with the location.
- In the web application, admins can view the sensor parameters.
- With the help of the notification ,admins can take the necessary action to avoid overflow of harmful gases.
